## Realcorp Commercial Cleaning: offices, strata, and commercial buildings in South Melbourne and the inner south

South Melbourne is one of Melbourne's most active commercial precincts. Sitting directly south of the CBD, bordered by Southbank, Port Melbourne, and Albert Park, it combines high-density residential towers, established office buildings, boutique commercial premises, and a growing strata sector — all within a few kilometres of each other.

Realcorp Commercial Cleaning operates across South Melbourne and the inner south, delivering professional commercial cleaning to offices, strata buildings, and commercial facilities throughout the

precinct. Our flagship inner south contract is **Gravity Tower** in South Melbourne, a working demonstration of how we manage modern high-rise strata cleaning operations.

---

## ## Why South Melbourne demands professional commercial cleaning

South Melbourne has moved a long way from its industrial and warehouse origins. It's now one of Melbourne's most active mixed-use precincts, and that transformation has raised the bar on what professional cleaning looks like here.

- **High-density residential strata** — apartment towers, serviced buildings, and mixed-use developments with hundreds of residents sharing common areas - **Boutique commercial offices** — small to medium-sized businesses, creative agencies, professional services firms, and tech companies in converted warehouses and modern office suites - **Proximity to the CBD** — tenants and owners in South Melbourne expect CBD-standard presentation and cleanliness - **Port Melbourne and Fishermans Bend** — the emerging Fishermans Bend urban renewal precinct and the established Port Melbourne commercial strip add industrial, logistics, and emerging residential stock to the cleaning mix - **Albert Park** — the village-style retail strip and surrounding residential areas include small commercial operators who need professional, unobtrusive cleaning

Reliability and accountability matter more than price in this precinct. A missed clean in a strata common area generates body corporate complaints. A poorly presented office damages client impressions. South Melbourne holds a high standard — Realcorp Commercial Cleaning is built to meet it.

---

## ## Strata cleaning in South Melbourne: Gravity Tower and beyond

Our active strata contract at **Gravity Tower** in South Melbourne is a live example of how we operate in modern residential strata. Strata cleaning is a specialist niche — it's not simply mopping floors. A properly structured strata cleaning program covers every shared surface, every day.

**Common area cleaning** Lobbies, lift interiors and surrounds, corridors, fire stairs, and mail areas. These spaces are used by every resident, every day. They set the first impression of the building, and they're the first thing a body corporate committee notices when standards slip.

**Basement and car park cleaning** Basement car parks accumulate dust, oil residue, tyre marks, and general debris. Regular sweeping and washing keeps these areas presentable and compliant.

**Bin room and waste management areas** Bin rooms are a hygiene and odour challenge in any residential building. Regular cleaning, disinfection, and odour management keep them functional and compliant.

**External areas and building facades** Entry paths, garden beds, building entries, and accessible outdoor areas all fall within the scope of a comprehensive strata cleaning program.

**Window cleaning and glass surfaces** High-rise buildings carry extensive glass — lobby glass, common area windows, internal glass partitions — that needs periodic professional cleaning to maintain presentation standards.

For body corporates, owners corporations, and strata managers in South Melbourne, Southbank, Port Melbourne, and Albert Park, Realcorp Commercial Cleaning delivers a complete strata cleaning solution backed by GPS-verified attendance and digital reporting. Every visit is documented, giving you a full audit trail for body corporate records and compliance purposes.

## ## Office cleaning in South Melbourne

South Melbourne's office market runs from boutique two-person studios in converted warehouses through to mid-sized commercial floors housing professional services firms. Realcorp Commercial Cleaning services offices across that full range.

Our office cleaning services in South Melbourne include:

- **Daily and nightly cleaning programs** — scheduled to minimise disruption to working hours
- **Desks, surfaces, and workstations** — cleaned and sanitised
- **Kitchen and breakroom cleaning** — including appliance cleaning, bench sanitisation, and waste management
- **Bathroom and amenity cleaning** — to commercial hygiene standards
- **Carpet vacuuming and hard floor mopping** — appropriate to your floor surface
- **Glass and window cleaning** — internal glass and meeting room surfaces
- **Periodic deep cleans** — end of tenancy, pre-inspection, and seasonal deep cleans on request

Every South Melbourne office client operates under the same GPS-verified attendance and digital checklist systems that govern all Realcorp Commercial Cleaning operations. You get a clear, auditable record of what was cleaned and when — no ambiguity, no chasing.

---

### ## Southbank: commercial and mixed-use cleaning

Southbank sits immediately adjacent to South Melbourne and is one of Melbourne's most demanding mixed-use environments. Major commercial towers, arts and cultural venues, hospitality, retail, and high-rise residential all operate within a compact footprint. Cleaning requirements here are complex — tight scheduling windows, multi-tenancy access constraints, and the expectation that cleaning happens invisibly around business and residential activity.

Realcorp Commercial Cleaning's experience in high-density environments — including our student accommodation operations in Adelaide and our Melbourne metro strata and commercial work — positions us well for Southbank's operational demands. We know how to run compliant, auditable cleaning programs in environments where disruption isn't an option. We're actively accepting new commercial enquiries in the Southbank precinct.

---

### ## The Realcorp approach: accountability built in

#### ### Zero subcontractors

Every cleaner on every Realcorp Commercial Cleaning site in South Melbourne and the inner south is a **directly employed Realcorp team member**. No subcontractors. No labour hire workers operating under a Realcorp name. No franchise arrangements. One team, one chain of accountability. When you engage Realcorp Commercial Cleaning, you know exactly who is cleaning your building and who is responsible for the outcome.

#### ### GPS-verified attendance

Our GPS clock-in technology confirms that our staff are on-site at the contracted time. For strata managers handling body corporate accountability, and for commercial landlords managing tenant expectations, this documentation removes the guesswork entirely. Attendance is recorded, timestamped, and available on request.

#### ### Digital checklists and reporting

Every clean is completed against a digital checklist. Tasks are signed off in real time. Reports are available to facility managers, strata managers, and property managers on request. The result is a full, auditable record — useful for compliance purposes, body corporate documentation, and performance

reviews. No paper trails. No ambiguity.

### ### Family-owned, Melbourne-based

Realcorp Commercial Cleaning was founded in Melbourne in 2016. We're a family-owned business — not a franchise, not a listed national company. Our reputation has been built one client at a time, and we approach every site with the same standard of accountability.

### ### Money-back quality guarantee

If a clean doesn't meet our agreed standard, we return to fix it. If we can't fix it to your satisfaction, you don't pay. That guarantee applies to every South Melbourne client without exception.

---

## ## Frequently asked questions: commercial cleaning in South Melbourne

### ### Does Realcorp Commercial Cleaning operate in South Melbourne?

Yes. Realcorp Commercial Cleaning is actively operating in South Melbourne, including a strata contract at Gravity Tower. We service offices, strata buildings, and commercial facilities across South Melbourne, Southbank, Port Melbourne, and Albert Park.

### ### What commercial cleaning services are available in Southbank?

In Southbank, Realcorp Commercial Cleaning offers office cleaning, commercial building cleaning, strata common area cleaning, and cleaning for mixed-use developments. Our team services high-density urban environments with GPS-verified attendance and digital reporting. We're accepting new commercial enquiries in the Southbank precinct.

### ### Can I arrange strata cleaning in South Melbourne?

Yes. Strata cleaning is an active part of Realcorp Commercial Cleaning's South Melbourne operations. We currently service Gravity Tower and are accepting enquiries from strata managers, owners corporations, and building managers across South Melbourne, Southbank, Port Melbourne, and Albert Park. Our strata cleaning programs cover common areas, lobbies, car parks, bin rooms, and external areas — all backed by digital reporting and GPS-verified attendance, with full documentation available for body corporate records.
