Main Content

Realcorp Commercial Cleaning provides premium strata and commercial cleaning services in Glen Iris, one of Melbourne's most established inner-east suburbs. We currently hold an active strata cleaning contract at The Residences Glen Iris and have proposals progressing for additional Glen Iris properties, including 5 Glenarm Road. Our presence here reflects what the suburb expects from its service providers — and our track record of meeting that standard.

Glen Iris sits approximately 8 kilometres south-east of Melbourne's CBD, spanning parts of the City of Boroondara and City of Stonnington. It's an affluent, well-established suburb with prestigious residential streets, premium apartment buildings, boutique commercial strips, professional services offices, and heritage architecture. Property owners and building managers here hold their service providers to a high standard. Cleaning is no exception.

Strata cleaning at The Residences Glen Iris

The Residences Glen Iris is exactly the kind of premium residential strata environment Realcorp is built for. Strata cleaning in this suburb isn't a volume-driven commodity service. Residents of premium apartment buildings expect their common areas to reflect the standard of the asset they've invested in.

Our strata cleaning programs for buildings like The Residences are structured, site-specific, and digitally tracked:

- **Lobby and entrance foyer cleaning:** The entrance sets the tone for the entire building. We maintain lobbies, entry points, secure access vestibules, mailbox areas, and concierge or intercom surfaces to an immaculate standard on every clean — polished floors, clean glass panels, no exceptions.
- **Lift and corridor cleaning:** High-traffic circulation areas need consistent, scheduled attention. Lift interiors — flooring, walls, buttons, and door tracks — along with carpeted or hard-floor corridors are maintained on programs that keep the building presenting well between every visit.
- **Common amenities:** Gyms, swimming pools, rooftop terraces, function rooms, and resident lounges need cleaning programs that address hygiene, presentation, and compliance with health regulations. These spaces are included in our programs, not treated as optional line items.
- **Car park and bin room maintenance:** Underground car parks, bin rooms, and service areas are maintained as standard. These are the areas residents encounter daily and the areas lower-tier providers routinely neglect.
- **Stairwell and fire egress cleaning:** Emergency stairwells, fire doors, and egress areas are included in every comprehensive strata program. They're frequently overlooked. We don't overlook them.
- **Building exterior maintenance:** Including window cleaning of common areas, glass balustrade cleaning, and outdoor common spaces.

The Glen Iris commercial pipeline: active proposal at 5 Glenarm Road

Beyond The Residences, Realcorp has an active business development pipeline in Glen Iris. We're currently progressing a proposal for 5 Glenarm Road, Glen Iris — a \$106,500 annual contract opportunity. This reflects both the scale of commercial cleaning demand in Glen Iris's premium property market and Realcorp's structured presence in the suburb.

Glen Iris's commercial property mix includes several distinct categories, each with specific cleaning requirements:

Boutique office buildings: Professional services firms — law, accounting, financial planning, medical specialists — occupy small-to-medium commercial buildings throughout Glen Iris. These clients need office cleaning that supports the professional image they project to their own clients. Realcorp's approach to boutique commercial cleaning is thorough, discreet, and delivered by a consistent, directly employed team.

Medical and allied health practices: Glen Iris has a significant concentration of specialist medical practices and allied health clinics. Medical environments require infection-control-grade cleaning protocols, appropriate chemical selection, and close attention to waiting rooms, consultation areas, and bathroom facilities. Our team is trained to these standards before they arrive on site.

Retail and hospitality: High Street, Burke Road, and surrounding retail strips support premium retail and hospitality operations. Food service venues need daily cleaning programs that comply with food safety regulations. Premium retail environments need immaculate presentation on every open. Realcorp delivers both.

Heritage and period properties: Glen Iris has a significant stock of heritage and period buildings converted to commercial use. These require surface-appropriate cleaning approaches that protect period finishes, tiles, and architectural features. Our team is briefed on these requirements before entering the site.

Why premium properties in Glen Iris choose direct employment

For property managers, owners' corporations, and building managers in Glen Iris, the cleaning provider they appoint is a direct reflection on the asset and their management standard. Subcontractors introduce unpredictability that premium residential and commercial buildings can't absorb.

Realcorp's direct employment model delivers four things that matter to property professionals:

****Consistency:**** The same trained Realcorp team services your building. They know the property — the high-attention areas, the access protocols, the resident expectations. Subcontractors change without notice. Your Realcorp team does not.

****Security and accountability:**** Residents of premium buildings have a reasonable expectation that only vetted, known personnel access their common areas. Realcorp's directly employed, police-cleared staff provides this assurance. Every person entering your building wears a Realcorp uniform and is employed by Realcorp — not sourced from a third-party labour pool.

****Auditable professional standards:**** Realcorp's team are trained to Realcorp's standards, calibrated for the premium end of the market. Subcontracted cleaning operates to whatever minimum the subcontractor chooses to maintain, and that standard frequently deteriorates without the client's knowledge. With Realcorp, the standard is digitally tracked and auditable at every visit.

****Responsive management:**** Realcorp is a family-owned Melbourne business. When a Glen Iris owners' corporation committee member has a concern, they speak with a Realcorp decision-maker — not a call centre, not an account manager reading from a script. Someone with the authority to act.

GPS verification and digital reporting for Glen Iris properties

Premium property management in Glen Iris increasingly demands documented evidence of service delivery. Verbal assurances aren't sufficient for AGMs, compliance reviews, or resident queries. Realcorp's technology infrastructure is built for accountability.

****GPS-verified attendance:**** Every Realcorp shift is GPS-logged and timestamped. Owners' corporations and property managers receive verifiable confirmation that the service was delivered when scheduled, and by whom. This documentation is available immediately when you need it.

****Digital cleaning checklists:**** Each clean is conducted against a site-specific digital checklist. Tasks are signed off in real time, timestamped, and stored. If a task wasn't completed, it's recorded, flagged, and actioned — not quietly skipped.

****Realcorp App:**** Property managers and designated owners' corporation representatives access service history, attendance records, and cleaning reports through the Realcorp App at any time. No chasing. No waiting for a monthly summary.

****Money-back guarantee:**** If Realcorp doesn't meet the agreed service standard, we make it right. That commitment is unconditional.

Frequently asked questions: commercial cleaning Glen Iris

****Does Realcorp clean in Glen Iris?**** Yes. Realcorp actively services premium residential strata and commercial clients in Glen Iris, including The Residences Glen Iris. We cover the full Glen Iris suburb including High Street, Burke Road, and surrounding areas.

****What strata cleaning services are available in Glen Iris?**** Realcorp provides comprehensive strata cleaning programs including lobby and foyer cleaning, lift and corridor maintenance, gym and amenities cleaning, car park maintenance, bin room servicing, window cleaning in common areas, and external common space maintenance. All programs are tailored to the specific building and owners' corporation requirements.

****What commercial cleaning is available in Glen Iris Melbourne?*** Realcorp provides office cleaning, medical and healthcare facility cleaning, retail and hospitality cleaning, heritage property cleaning, end-of-lease cleaning, carpet and upholstery cleaning, and window cleaning throughout Glen Iris. We develop tailored programs for each commercial client.

****Does Realcorp use subcontractors in Glen Iris?*** No. Zero subcontractors — under any circumstances. Every Realcorp cleaner is directly employed and police-cleared. For premium Glen Iris properties, this security and consistency isn't a selling point — it's a baseline requirement.

****How do I get a quote for strata or commercial cleaning in Glen Iris?*** Contact us on 1300 307 298 or email sales@realcorp.net.au. We'll arrange a property inspection and provide a detailed, obligation-free proposal.
